Ms. Livigni stated that the proposed project had been approved after a Public Hearing in 2012, with a borrowing amount of \$221,000. In an effort to find the most cost effective way of resolving the ongoing problems in the district, Ms. Livigni and Environmental Consultants collected data to modify the proposed project. There will be some minor Change Orders within a short time of the commencement of the work, but overall the amounts of the Change Orders should not be too great. She added that Environmental Consultants knows the system very well and that they are the best choice to work on remediating the problems.

Councilman Jessup moved to award the bid to Environmental Consultants, seconded by Councilman Polhemus. The motion carried.

The Highway Superintendent requested Town Board's permission to award Materials and Street Sweeping Contracts for 2013-2014 to the lowest bidders. (SEE ADDENDUM – Lowest bids are in bold type.)

Supervisor Luna made a motion to deny the request.

Councilman Bell asked why Mr. Luna wished to deny the request. Mr. Luna replied that it was too costly to send all of the Clerks. Ms. Harklerode's expenses will be paid by the Town of

Stanford; however the \$40 registration fee for the conference will be picked up by the Town of Lagrange.
Councilman Jessup seconded the motion. The motion carried.

My recommendation is that we award blacktop to both Dutchess Quarry and Tilcon due to the location of each plant. It is more cost effective to haul from Tilcon when we are on the South side of town and Dutchess Quarry when we are on the North side of town.

4. Dutchess Quarry & Supply 410 North Avenue Pleasant Valley, NY 12569 845-635-2174	Delivered to Hwy Garage	\$ 18.50	Fishkill, NY
	F.O.B Seller's Storage	\$ 14.00	Fishkill, NY

My recommendation is that we award the washed highway grade sand to Redwing as they meet the bid specification the best. Redwing will deliver @ \$19.00 per ton and FOB @ \$16.00 per ton. Thalle Ind. and Dutchess Quarry did not bring samples of their sand for testing therefore not meeting the bid specifications. Rt. #82 Sand has to many fine particles in the material so they don't meet the bid specifications.
